

# New Zealand International Doctoral Research Scholarship - Impact Statement

*Fernando Cagua*

*28/05/2015*

Funder guidelines:

Specifically, comment on how your research will have a tangible, positive effect on:

- New Zealand's economy, in terms of international trade and business development in key sectors, OR
- New Zealand's population in terms of health and safety, OR
- Research and scholarship in the above two areas

Please also comment on:

- How innovative your research is
- The extent to which your research will attract international interest
- The extent to which your research encourages international academic relationships and collaborations
